## Tips for using your health plan

### General Tips

- Choose an in-network primary care physician.
- Schedule your preventive care with your physician. This is covered at no cost to you as long as you use in-network providers.
- Avoid out of network providers when possible as their costs are higher and you can be balance billed.
- Register for myuhc.com to track expenses, find participating providers, and get health care estimates.
- UnitedHealthcare's Nurseline is available 24/7 at no cost and can assist in providing guidance to the most appropriate care. 24/7 Virtual Visits are also a great option that are less expensive than urgent care or emergency room and allows you to access care from the comfort of your home for treatment of minor issues.

### Triple Choice Plan

- Choose a Tier 1 primary care physician.
- If you are referred to a specialist, check with UnitedHealthcare to ensure the specialist is Tier 1 to have the lowest out of pocket.

\*as of April 2021

## How to find a network doctor or hospital:

**1** Visit [whyuhc.com/stateofaz](https://whyuhc.com/stateofaz).

**2** Select the Triple Choice Plan.

Ask yourself the following questions:

- a. What are your health needs?
- b. Is your provider in the network?
- c. What are the plan details?

**3** Search for a provider.

You can search by doctor and facility name, type of service or condition. It's easy to personalize your search by location, specialty, patient ratings and more.

Once you have narrowed your search, you will be able to see if the provider is accepting new patients, read patient reviews, get directions and even login to view costs.

## Health care terms

**Coinsurance:** Your share of the costs of a covered health care service, calculated as a percent of the allowed amount for the service.

**Copay:** A fixed amount you pay for a covered health care service, usually when you receive the service.

**Deductible:** The amount you owe for health care services before your health plan begins to pay.

**Out-of-pocket maximum:** The most money you have to pay for covered expenses in a plan year.

For more health care term definitions, visit the Just Plain Clear® English and Spanish Glossary at [glossary.justplainclear.com](https://glossary.justplainclear.com).

# What's in your plan?

Look closer at what's covered in your UnitedHealthcare **Triple Choice Plan**.

## Triple Choice Plan

- You'll first have a deductible to meet before your plan will start to pay. Then you'll be responsible for copays for most services.<sup>3</sup>
- Don't forget that your preventive care is 100% covered when received in the network.
- With the UnitedHealthcare Triple Choice plan, you'll have network coverage with our nationwide Tier 1 and Tier 2 network, so you're covered wherever you travel.
- Our Tier 1 providers meet quality standards and deliver the greatest value in health care. And with the UnitedHealthcare Triple Choice plan, all network hospitals, urgent cares, labs, radiology facilities, medical equipment providers, mental health providers and surgical facilities are considered Tier 1.
- You have out-of-network coverage, but those providers will likely charge you more and you will be responsible for making sure your claim is filed.
