

For life's challenges, support is here

At UnitedHealthcare, we believe that care shouldn't stop at physical health. That's why we offer behavioral health resources that can help support your path toward mental and emotional well-being.

Behavioral health is health

Behavioral health is about more than just mental health: It includes addiction issues to anger management, coping with grief to dealing with stress and other challenges. It's an important part of your overall well-being — because how you feel matters, and caring support from behavioral health providers is a part of your plan.
