Rx Coverage

When it comes to your health, medications can play an important role. So, it's good to be in the know about your pharmacy benefits: what they are, how they work and ways they can help you save on costs.

Let's start by introducing you to the service that UnitedHealthcare uses for all things pharmacy: welcome to OptumRx.

*ON-SCREEN TEXT: [at home

and view lower-cost alternatives through the prescription drug list, or PDL.

What's great about the PDL is that it gives you a list of commonly prescribed medications and lets you know which ones are covered by your plan.

The PDL also arranges medications by tiers, from typically lower-cost generic drugs on Tier 1 to higher-priced brand name ones on Tier 3. You can use the PDL to discuss lower-cost options with your doctor.

When it comes to filling your prescriptions, there's a couple more ways to save on costs:

You can choose to pick up the prescription at a network pharmacy, which typically costs less than an out-of-network one

or you can choose home delivery and have your prescription shipped directly to you — at no additional cost.

Now that we've introduced you to OptumRx, there's only one thing left to do: look forward to a pharmacy experience designed to be easier for you to use.
